

# ASHCOURT

— GROUP —

Your sustainable construction materials  
& recycling partner

Ashcourt West Yorkshire

# Who is Ashcourt Group?

Ashcourt Group is a family-run organisation and a leading supplier of construction materials and waste management solutions. Since the group's inception in 2009, we have expanded significantly through organic growth and a number of strategic acquisitions.

We provide a fully integrated solution that ensures a streamlined service for all clients. The multi-faceted divisions of the group enable us to facilitate all requirements of construction projects, supplying products such as quarried and recycled aggregates, ready-mix concrete and a range of complimentary services such as the supply of waste management solutions.

---

# Where does Ashcourt Group operate?

To date, the company has just over 1,000 employees and operates across Yorkshire, Lincolnshire and the North East, with plans to expand nationally. We currently have several strategically located aggregate outlets, six ready-mix concrete plants, multiple wash plants and other recycling facilities, and have a fleet in excess of 220 HGVs out on the roads daily, servicing our customers across the construction industry.

We work with a variety of clients including a number of blue chip companies, national construction companies, local councils and a range of agricultural, commercial and domestic customers.

---

# What sets Ashcourt Group apart?

Ashcourt Group understands now more than ever that clients are looking to partner with reliable construction suppliers that are capable to assist with every step of a project. The seamlessly integrated divisions of Ashcourt Group provide a streamlined service with quality and expertise at the heart of everything we do.

We strive to be dynamic and innovative leaders in all sectors in which we operate. This is evidenced through our continued reinvestment into the business and our ongoing commitment to achieve our sustainability targets, thus helping our customers to achieve their own environmental and sustainability goals.

# AGGREGATES

**DELIVERY • COLLECTION • MUCK AWAY  
GRAB WAGON HIRE**

Ashcourt West Yorkshire is an efficient, reliable and independent aggregate supplier who focus not only on the quality of products that we provide, but also a high standard of customer service.

Our impressive range of tipper wagons are modern and fitted with top-of-the-range safety features. They are available for hire seven days a week and can hold up to 20 tonnes of material.

Ashcourt Group has installed a number of state-of-the-art aggregate wash plants situated across Yorkshire, Lincolnshire and the North East, which means we are a trusted supplier of both quarried and recycled aggregate products.

# OUR PRODUCTS

QUARRIED, WASHED & RECYCLED

We produce and distribute a wide range of high-quality aggregate products derived from a network of quarries, wash plants and overseas imports. Having operated within the aggregates industry for many years, we offer a wealth of experience and specialist advice on our extensive product portfolio.

## LIMESTONE PRODUCTS

We provide all grades of quarried and bulk fill limestone which are commonly used as general fill aggregates due to them being strong, versatile and cost-effective. Our limestone products are also available in grading to dust.

6F2 Limestone

20mm Clean Limestone

40mm Clean Limestone

75mm Clean Limestone

125mm Clean Limestone

Fill Sand

0-4mm Sharp Sand

Washed Sharp Sand

Washed Soft Sand

## SAND PRODUCTS

Our sand products come directly from our quarries, recycled from our wash plant or imported by STEMA Mibau directly from Norway. These products are mainly used in building materials such as concrete and cement.

Quarried Soft Sand

# GRITSTONE PRODUCTS

DOT Type 1

Quarried in West Yorkshire, this gritstone is certified for all general construction applications. Gritstone is one of the hardest aggregate materials which is ideal for gardens, driveways and also base layers in construction.

4-10mm Gritstone

20-10mm Gritstone

40-20mm Gritstone

75-40mm Gritstone

6F5

75-150mm Gritstone

# OTHER PRODUCTS

Our other aggregate products range from domestic top soil and washed pipe bedding to recycled crushed brick and concrete.

Domestic Spec Top Spoil BS3882

Subsoil / 2C

Recycled 6F5 Crushed Brick

Tarmac Scalpings

Quarried 20mm Single Size Limestone

# RECYCLED AGGREGATES

**YOUR SUSTAINABLE AGGREGATE PROVIDER**

*Our wash plant is capable of producing 120 tonnes of recycled products per hour providing sustainable solutions for your projects from a trusted and reliable supplier of recycled aggregates.*

40-80mm Clean

## WASH PLANT PRODUCTS

Our state-of-the-art plant is capable of recycling spoil and subsoil through an extensive washing process then screening the aggregates into different sizes and products.

10mm Pipe Bedding

20mm Pipe Bedding

Washed Soft Sand

Washed Sharp Sand

## MUCK AWAY SERVICES

Our large fleet of wagons provide us with the capability to remove even the largest quantities of spoil from site quickly and efficiently. The spoil is then processed by our wash plant to produce a range of recycled aggregates.

## GRAB WAGON HIRE

We have a fleet of 8 wheel grab wagons available to hire on a day-rate or priced per job based on load weight. These are available to hire between Monday-Saturday.

# ADDITIONAL SERVICES

## ROAD SWEEPER HIRE • HAULAGE

Ashcourt Group has an enviable reputation for being the partner of choice in the construction industry. We provide a seamless range of logistics services and road sweeper services which complement our construction materials offering.

Our teams work together to vigilantly create a streamlined service for all clients. Taking advantage of our full product portfolio ensures an efficient and more cost-effective solution for your project.

# ROAD SWEEPER HIRE

Ashcourt provide road sweepers for hire on a day rate or long-term contractual basis. Our fleet of sweepers are all within three years old and each come with an experienced, professional driver. Our drivers are all trained to the highest standards and are knowledgeable and approachable if you need to contact them with any queries or special requests before they arrive on site.

## Daily Hire

We offer a competitive daily hire rate for small or short-term contracts. We can also provide hourly rates for smaller projects.

## Long Term Hire

Our sweepers are available for hire on a long-term basis for large commercial projects. Ashcourt provide road sweepers on a range of large projects such as new build housing developments and have many years' experience working with national housing developers.

Our sweepers are ideal for:

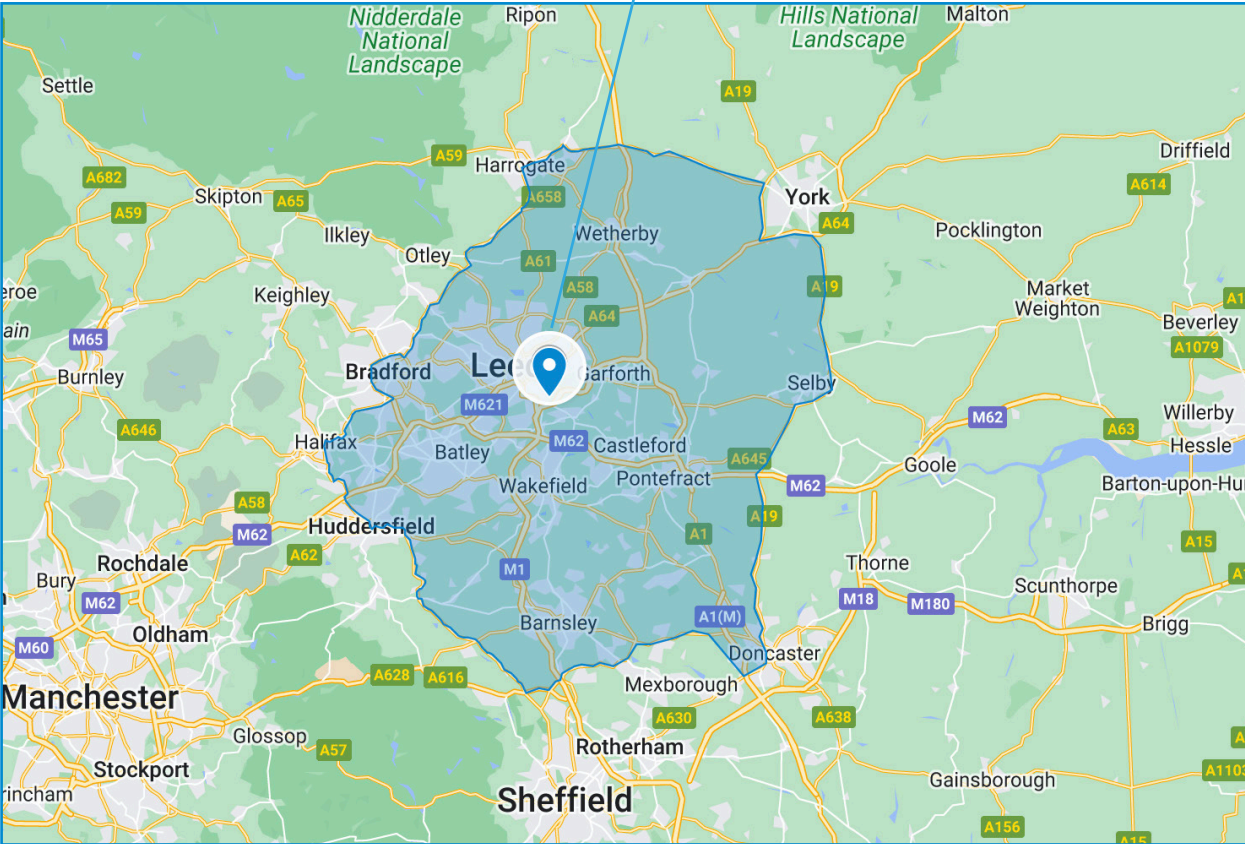

Stadiums  
Building Sites  
New Build Housing Developments  
Flood Prevention  
Environmental Protection

# SUSTAINABILITY APPROACH

At Ashcourt Group, we take our environmental and sustainable responsibilities extremely seriously and always strive to minimise the impact of our operations on the communities in which we work. As we aim to become carbon neutral, we understand the importance of reducing our carbon footprint, as well as those generated by the activities of our partners, subcontractors and suppliers.

Our revolutionary wash plants are installed throughout key locations and are capable of producing 120 tonnes of recycled products per hour. The installation of our EWT wind turbine allows an output of one megawatt to service long term power. We have also made significant investments into a range of fully electric trucks which are capable of performing regular tasks asked of our diesel-powered trucks with ease.
